

Project Management for Professional Competencies (PMPC)

a six-week long training program by IBA, University of Dhaka

Mastering Project Management: From Concept to Completion

In today's dynamic business environment, the ability to successfully steer projects from their initial concept to final delivery is a critical and highly sought-after competency. The six-week **Project Management for Professional Competencies (PMPC)** course at IBA is meticulously designed to transform you into a confident and effective project leader, equipped with the knowledge and skills to manage complex challenges and deliver outstanding results.

Course Overview

This comprehensive program provides a deep dive into the essential concepts, tools, and techniques of modern project management. Participants will journey through the entire project life cycle, from **project prioritization and selection** to mastering the delicate balance of managing **project scope, time, and budget**. The curriculum covers critical, in-demand skills such as **mapping and scheduling activities**, ensuring **project quality**, identifying and mitigating **risks**, and developing robust **monitoring and evaluation frameworks**. This course will empower you to move beyond theory and apply proven methodologies to real-world scenarios.

This course is fully aligned with the syllabus of Project Management Professional (PMP)[®] certification exam by Project Management Institute (PMI)[®]. This course will meet 35 hours requirement for sitting the PMP exam. The latest PMI[®] materials will be used.

Core Competencies You Will Gain

Upon successful completion of this course, you will be better prepared to:

- **Develop** compelling business cases to justify and launch new projects.
- **Navigate** the complete project life cycle with a deep understanding of stakeholder management.
- **Define** project scope with precision and create a cohesive Work Breakdown Structure (WBS).
- **Master** scheduling techniques, including Critical Path Analysis, to ensure timely delivery.
- **Construct** and manage realistic budgets for projects of varying scales.
- **Design** proactive risk management strategies to identify, analyze, and mitigate potential threats.
- **Implement** effective monitoring systems to track progress and make data-driven adjustments.
- **Craft** winning project proposals and lead successful negotiations with stakeholders.

Who Should Attend?

This course is ideal for:

- Project managers seeking to formalize their skills and adopt industry best practices.
- Aspiring project leaders and team members looking to take on greater responsibility.
- Functional managers who oversee projects and need to improve their execution capabilities.
- Professionals from any industry—including IT, engineering, marketing, and development—aiming to enhance their professional competencies.
- Executives from both public and private sector.

Equip yourself with the skills to deliver projects on time, within budget, and to the highest standards. Enroll in the PMPC at IBA and take the next definitive step in your professional journey.

Eligibility Criteria

Prospective candidates must fulfill the following criteria for admission:

- Bachelor's degree in any discipline; and,
- Minimum 2 (two) years of work experience with reputed organization/s (work experience can be relaxed for exceptional candidates).

Application Procedure
